Newton Institutional Links is part of the Newton Fund. This is part of the UK's official development assistance programme.

Newton Institutional Links provides grants for the development of research and innovation collaborations between the UK and Indonesia. The research facilitated by these grants tackles local development needs and challenges such as extreme weather conditions, access to affordable health care, food and energy security.

The grants are intended to provide small-scale seed funding to:

This site uses cookies to help make it more useful to you.
